

MasterMover®

Worldwide Electric Tug Solutions

What could we move for you?

Benefits For The Automotive Sector

- Just in time (JIT) delivery of materials and components to production lines
- Reduced reliance on fork lift trucks or ride-on tugs
- Dramatic reduction in manual handling
- Assists in the implementation of lean manufacturing techniques
- Precise positioning of loads in metrology environments
- Enable staged production processes (TAKT)

Commercial Vehicles Handling | Tugs For The Automotive Sector

MasterMover have been working with the worlds leading automotive manufacturers for over a decade. Whether it's for delivering drivetrain components to the line or for transferring dies around a press shop our range of machines provide just the flexibility, control and manoeuvrability that the automotive environment demands.

- BMW
- Ford UK Ltd
- Nissan
- Vauxhall Motors
- Jaguar Cars
- Bentley Motors
- Magna Kanser
