

MasterMover®

Worldwide Electric Tug Solutions

What could we move for you?

Benefits For The Construction Sector

- Increased efficiency through semi automating assembly lines
- Reduce capital expenditure by using fewer fork lift trucks
- Dramatic reduction in manual handling
- Enable delivery of components and materials 'just in time'
- Safe movement of loads through congested production environments
- Reduce downtime by enabling any trained operator to move a load – no more waiting for forklift or overhead crane availability!
- Small footprint machines enable better use of production and warehouse space.
- Control and manoeuvrability enables you to move heavy and awkward loads more safely using less manpower

Material Handling Solutions For The Construction And Mining Industry

A key benefit for this sector is improving production flow which dramatically increases productivity. MasterMover provides a vital part in implementing methods such as Kaizen, lean manufacturing, kanban, continuous flow and Takt time. These cost effective solutions are being used by leading manufacturers across the globe which deliver significant returns for their investment.

- JCB
- Volvo
- Komatsu
- Caterpillar
