

Benefits For Manufacturing And Assembly

- Dramatic reduction in manual handling
- Enable delivery of components and materials 'just in time'
- Safe movement of loads through congested production environments
- Increased efficiency through semi automating assembly lines
- Reduce downtime by enabling any trained operator to move a load – no more waiting for forklift or overhead crane availability!
- Reduce capital expenditure by using fewer forklifts
- Small footprint machines enable better use of production and warehouse space.
- Control and manoeuvrability enables you to move heavy and awkward loads more safely using less man power

Pedestrian Tugs In Manufacturing And Assembly

MasterMover provides electric tug solutions for all companies involved with manufacturing. This sector has the most diverse requirements from moving a small trolley to moving a complete production line. Over the years we have supplied our product range to work in the most demanding of environments. The various sectors listed below are just a small selection of the solutions and benefits we have provided.

- Airbus
- Bentley Motors
- Terex
- Elliott Modular
- Smurfit Kappa
- Bombardier
- JCB
- Prysmian Cables
- Dennis Eagle
- Alstom

What's Being Moved?

Machine: MT10/560
Business Type: Plastic and metal extrusion

Machine: TMS1650+
Business Type: Articulated Lorry trailers

Machine: MT5/400
Business Type: Aerospace
