

Benefits For The Pharmaceutical Industry

- Dramatic reduction in manual handling
- Moving production machinery off line becomes very quick, easy and safe
- Quick and easy movement of ingredients, machines and finished products
- Reduces damage to plant by giving the operator complete control over heavy loads.
- Small machines make them ideal for use in pharmaceutical production environments.
- Ideally suited to operating in clean room environments
- No operator license required

Pharmaceutical Grade Battery Powered Tugs

Pharmaceutical production is an ideal environment for MasterMover. With a comprehensive range of pedestrian operated equipment to move large chromatography columns to small trolleys in confined spaces, safe and easy handling is achievable. Stainless steel options are available and with IP rating the machines perform well in wet areas. The MasterMover has a standard and bespoke coupling system so it can be used with almost any mobile equipment in this sector.

- Novartis
- Pfizer
- Eli Lilly
- Boehringer Ingelheim
