

Benefits For The Aerospace Sector

- Enable staged production processes (TAKT)
- Just In Time (JIT) delivery of materials and components to production lines
- Precise positioning of loads in metrology environments
- Highly controlled movement of long heavy loads
- Reduced reliance on fork lift or ride on tugs
- Dramatic reduction in manual handling

Industrial Electric Tugs | Aerospace

MasterMover have been working with the worlds leading aerospace manufacturers for over a decade. Whether it's for moving a complete wing through a staged production process or positioning a fighter jet fuselage in a paint booth our range of Electric Tugs provide just the control and manoeuvrability that the aerospace environment demands.

- Gulfstream
- GE Caledonian
- BAE Systems
- Airbus
- EADS Astrium
