

Benefits For The Cable And Wire Sector

- Drums can be lifted from the floor on to the trolley without a crane
- Safe movement of loads through congested production environments
- Reduce downtime by enabling any trained operator to move a load – no more waiting for forklift or overhead crane availability!
- Control and manoeuvrability enables you to move heavy and awkward loads more safely using less man power

Cable And Steel Wire Reels

MasterMover provides solutions for moving cable and wire reels in production environments. There are two key solutions for moving cable drums, lifting on to a trolley and towing or simply pushing the drum. In all situations the powerful MasterPusher and MasterTug range provides solutions for moving reels through the manufacturing process. The pedestrian units provide exceptional control over heavy loads and reduce manual handling while increasing productivity. The applications listed below display a small selection of solutions supplied into this industry.

- AFL Communications
- Prysmian

What's Being Moved?

Machine: MT10/560
Business Type: Wire and cable
