

Benefits For Manufacturers

- Increased efficiency through semi automating assembly lines
- Reduce downtime by enabling any trained operator to move a load – no more waiting for forklift or overhead crane availability!
- Small footprint machines enable better use of production and warehouse space.
- Safe movement of loads through congested production environments
- Reduce capital expenditure by using fewer forklifts
- Control and manoeuvrability enables you to move heavy and awkward loads more safely using less man power

Engine, Pump And Generator Electric Power Tugs

MasterMover provides load moving solutions for companies involved with manufacturing and assembly of Engines, Pumps and Generators. The machines are compact and powerful so they help create modern, safe and efficient assembly methods. The various sectors listed below are just a small selection of the solutions and benefits we have provided.

- Perkins Engines
- Svendborg Hydraulik
- Heller Machine tools
- Mann & Hummel
- Cummins Engine
- FMC Technologies
