

## Benefits For The Cable And Wire Sector

- Reels can be lifted from the floor on to the trolley without a crane
- Safe movement of loads through congested production environments
- Reduce downtime by enabling any trained operator to move a load – no more waiting for forklift or overhead crane availability!
- Control and manoeuvrability enables you to move heavy and awkward loads more safely using less man power

## Pedestrian Electric Tugs | Cable And Wire

MasterMover provides pedestrian electric tugs for moving cable and steel wire reels in production environments. Machines in the MasterTug range are ideal for moving cable drums, lifting them on to a trolley and towing or simply pushing the drum. They are also used extensively to move reels through the manufacturing process. Our pedestrian electric tug units provide exceptional control over heavy loads and reduce manual handling while increasing productivity.
