

## Benefits For The Modular Buildings Sector

- Increased efficiency through assembly lines
- Reduced reliance on fork lift trucks
- Reduced downtime by enabling any trained operator to move a load
- Small footprint machines enable better use of production area
- Control and manoeuvrability enables you to move heavy and awkward loads more safely

## Modular Buildings Mover | Handling Solutions To Move Buildings Through Assembly

MasterMover provides load moving solutions for all companies involved in manufacturing modular buildings. The range of machines provides solutions for moving small trolleys to completed modular buildings through the assembly process. The compact units work well in congested areas and provides exceptional control over heavy loads.
