

How MasterMover machines benefit clients in automotive and commercial vehicle manufacturing:

- Achieve just-in-time delivery of materials
- Precise positioning of high-value components
- Safely and securely move loads up to 360,000 kg
- Lower costs thanks to leaner assembly lines
- Precise positioning of loads in metrology environments
- Enable staged production processes and TAKT time

We're improving material handling for leading automotive and commercial vehicle manufacturers

Create leaner assembly lines, improve control, save money

- BMW
- Ford UK Ltd
- Nissan
- Vauxhall Motors
- Jaguar Cars
- Bentley Motors
- Magna Kanser
